Designer Keypads CNX-B Series

The CNX-B Designer series wall mount keypads are available in configurations of 2, 4, 6, 8, or 12 buttons. Buttons are large in size for optimal ergonomics. Custom engraving of the buttons is available, including backlit engraving (black model only) for ultimate visibility in a darkened room. Each button includes an LED feedback indicator, with additional capability for audible feedback using custom WAV sound files. An onboard temperature sensor is also included for general monitoring of room temperature.

Each CNX-B keypad mounts in a standard electrical gang box and includes a matching 1-gang faceplate. Optional 2 and 3-gang faceplates are available to allow up to three keypads to be installed side-by-side. Optional Designer and Architectural faceplates are offered in a variety of elegant finishes.
